# How to Read the Budget

The FY 2003 Proposed Budget and Financial Plan serves as a communication tool on policy priorities, agency operations, program/organizational structures, and performance measures.

In addition, the budget book is a financial plan that provides information concerning sources of revenue and the use of these funds. It forecasts economic and financial conditions, current and planned long-term debt financing, reflects policy decisions, and provides other important financial information needed to operate the District's government. These elements are essential for the sound management of government resources and accurate financial reporting.

"How to Read the Budget" describes the sections of this budget volume that define the budget priorities for the District. These sections are consistent with the National Advisory Council on State and Local Budgeting Recommended Budget Practices that call for a presentation of information that provides the reader with a guide to government programs and organizational structure. Additionally, these sections are consistent with the Government Finance Officers Association's (GFOA) standards for the Distinguished Budget Presentation Award.

The budget is organized into three sections:

Special Chapters – This section contains several narrative chapters that provide general budget and financial information, including financial plans, revenues, expenditures and other budget related initiatives of the District that serve to inform the reader, at a high level, on the state of the District's finances.

**Agency Chapters** – This section describes the budget for each of the District's agencies by appropriation title.

Appendices – This section includes referenced documents such as the Budget Support Act, that are needed to explain and execute the FY2003 Budget.

### **Special Chapters**

# Introduction: FY 2003 Proposed Budget and Financial Plan

This chapter presents a descriptive and graphical summary of the budget and financial plan. It describes the FY 2003 budget development process and the sources and uses of the funds; discusses the beginning and ending fund balance, and provides an overview of key priorities for FY 2003.

#### Performance-Based Budgeting (PBB)

This chapter describes the District's transition to a budgeting approach that aligns resources with results. In the FY 2003 proposed budget, seven agency budgets were formulated and presented using PBB techniques. Implementing PBB will greatly improve the District's ability to make policy and funding decisions based on anticipated results and improve the District's ability to hold program managers accountable for achieving results.

#### **Financial Plan**

This chapter summarizes planned revenues and expenditures for FY 2003-2006. The chapter includes financing sources and uses and the assumptions used to derive the short-term and long-term economic outlook. It assesses the impact of budgetary decisions on the financial health of the District.

#### Revenue

This chapter presents the current revenue projections certified by the Chief Financial Officer. This chapter also addresses the District's revenue sources,

its economy, and the outlook for revenue through FY 2006.

#### **Operating Expenditures**

This chapter describes the District's general fund expenditures in recent years and projections for the future. It shows the changes between FY 1997 and FY 1998 brought about by the Revitalization Act, which altered the Federal-District relationship in several program areas, such as the judicial system, and then analyzes expenditures between FY 1998 and FY 2001, both by agency and by type of services paid for personnel, supplies, or fixed costs. Finally, it discusses expenditure projections in FY 2004 through FY 2006, as presented in the financial plan.

#### Capital Improvements Plan (CIP)

This chapter is a comprehensive, annually updated, six-year plan for the development, modernization or replacement of city owned fixed assets. The CIP provides readers with project descriptions and their scope. It also describes the programmatic goals of various District agencies and how these goals impact the need for new, rehabilitated or modernized facilities and systems. Finally, it details the financial impact and requirements of all the District's capital expenditures.

### **Agency Budget Chapters**

The agency budget chapter structure has been revised from the previous year. Although it still provides a general operating budget, capital budget, and programmatic and performance measure information on the specific programs within District agencies, the format of these chapters has been enhanced to improve readability and to explicitly illustrate the resources available, what the resources are spent on, and what is achieved with these resources.

Agency budget chapters are grouped by appropriation title and contain the following information:

- Agency Name and Code
- FY 2003 Proposed Operating and Capital Budget Table
- Introduction
- Agency Mission
- Strategic Result Goals
- Did You Know Table

- Where the Money Comes From
- How the Money is Allocated
- Program/Organization Chart
- Programs
- Program Description
- Program Initiatives
- Funding Box (PBB agencies only)
- Key Result Measures (PBB agencies only)
- Capital Improvement Plan
- Capital Improvement Plan Funding Table
- Performance Accountability Plan (non-PBB agencies only)

For PBB agencies, the agency mission, strategic result goals, and key result measures are taken from the agency's strategic business plan. See the PBB special chapter in this budget for additional information.

Some of the major structural changes of the narratives from the previous year include:

- A new introductory section (presented on the first page of each narrative). This section includes a chart depicting operating and capital funding (if applicable), the agency's mission statement and strategic goals.
- A "Did You Know..." chart that presents interesting facts and information about the agency.
   While not integral to understanding an agency's
   FY 2003 budget, it presents useful information
   that provides greater context for understanding
   an agency and its budget.
- A "Where the Money Comes From" chart. This
  is a revenue table that shows the sources of funding (i.e., federal, local, private, and other funds).
- A "How the Money is Allocated" section. This section includes an expenditure table by object class (or the reporting level) and a funding narrative that describes overall budget and full-time equivalent (FTE) variances from the prior year and other significant changes at the object class level.
- An expanded program section. This section includes a chart illustrating the organizational structure of the agency, program descriptions, program initiatives, and for PBB agencies, a funding summary including FTEs supported by the program.

To help the reader navigate the agency narratives with ease, an example of an agency narrative with call out boxes, in this case the Department

Gross Funds	0	0	0	100,325	100,325

#### Funding Summary

Based on the separation from the District Department of Transportation (DDOT) the numbers depicted in the text below were derived from the FY 2002 aggregate funding level for the Department of Public Works' approved budget and been isolated strictly for historical and comparative purposes. IMPORTANT NOTE: The FY 2002 funding level is currently reflected in the Department of Transportation. As a result of the separation, DDOT will continue to use the same agency code (KTO) has been established for DPW.

#### Local Funds

The proposed Local budget is \$82,498,211, an increase of \$7,639,278, or 10.2 percent, over the FY 2002 approved budget of \$74,858,933. Of this increase \$2,825,274 is for personal services and \$4,814,004 is for nonpersonal services.

FY2008 Proposed D.C. Budget and Financial Flan  ${f F-2}$ 

There are 1,067, 2.FTEs funded by Local sources, a decrease of 180.5 FTEs from FY 2002. This decrease is associated with the separation of 129.5 FTEs that are attached to the District

#### **Local Fund**

tion of \$1,074,855 in nonpersonal associated with cost-aving initiatives. wings will be returned to the General

Fund to be reallocated to other operations requiring local funds.

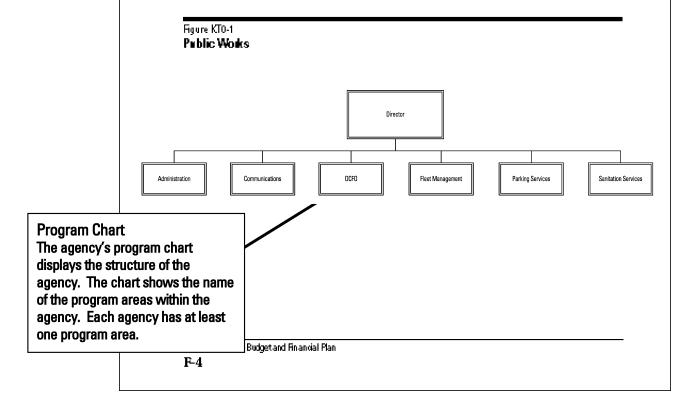

#### Other Funds

The proposed Other budget is \$2,242,307, an increase of \$689,887, or 44.4 percent, over the FY 2002 approved budget of \$1,552420. Of this increase \$410,390 is for personal services and \$279,497 is for nonpersonal services. There are 40 FTEs funded by Other sources, a decrease of 10 FTEs from the FY 2002 level. This decrease is

#### Intra-District Funds

The proposed Intra-District budget is \$16,247,697, an incresse of \$3,739,083, or 299 percent, over the FY 2002 approved budget of \$12,508,614. Of this incresse \$3,071,912 is for personal services and \$667,171 is for nonpersonal services. There are 139 FTEs supported by Intra-District funds, an incresse of 71 FTEs over the FY 2002 approved FTE level. The significant charges over the FY 2002 approved budget are as follows:

 A net incresse of \$3,739,083 that includes \$3,071,912 for positions whose funding support will move from Local PS to Intra-District PS based on the agency's proposed restructuring of the Fleet Management operations, and \$667,171 in related NPS costs.

#### **Programs**

This presents a summary of the programs and services that the agency provides. A description of the various divisions and their funding levels within the agency is also included in this section. This section also discusses the major initiatives associated with the program.

#### **Programs**

The Department of Public Works is committed to the following programs:

#### Sanitation Services

This program manages the collection and disposition of solid waste (trash and recyclables) from more than 110,000 District residences, enforces compliance with District and federal trash disposal laws, and cleans approximately 1,100 miles of streets and 400 miles of alleys in the District.

Key initiatives associated with the Sanitation Services program are:

Reengineering the asidential recycling program to increase the diversion rate.

#### **Funding Box**

#### Parking Services

This program provides enforcement services to District residents, businesses, and visitors for the purpose of encouraging voluntary compliance with parking regulations and ensuring safe and normal traffic flow. To achieve these objectives, the program enforces on street parking regulations in the District, impounds vehicles that are illegally parked and create a safety hazard or obstruct necessary access, and removes and disposes of abandoned and junk vehicles.

Key initiatives associated with the Parking Services program are:

- Shortening the cycle time for the disposal of abandoned and junk vehicles through legislative and business process modifications.
- Hiring the full contingent of parking officers and deploying them by neighborhood to tailor enforcement services to community reeds.

For FY 2003, proposed funding for Parking Services totals \$21,157,974, or 21 percent of the FY 2003 proposed budget and 390 FTEs.

Capital Improvements Plan (Narrative) This presents a summary of the projects that are proposed to receive funding in FY 2003 through FY 2008. Projects proposed for FY 2003 are described in this section as well as the funding schedule of the projects through FY 2008. Existing projects that are proposed to receive additional funding are described in prior volumes of the Capital Improvement Plan.

Capital Improvements Plan

As part of the District-wide savings initiative for FY 2003 (refer to Chapter 4) this agency's existing capital budget was cut by \$5,615,000.

The FY 2003 proposed capital budget for the Department of Public Works is \$2,200,000. This budget includes the Local Facilities funded. from (General Obligation or GO Bond) Financing)

The FY 2003 on-going, Local Facilities budget funds Facilities Renovation for the Ferwick. Building, This project will include renovation. and upgrading of building components as necessary to extend their useful life and modifications
